Environmental Farm Plan Workshop

Date and Time: Thursday, February 1 10:00 am - 2:00 pm

Address: Lacombe County Admin Building (40403 RR 27-4)

If you have received any Sustainable Canadian Agricultural Partnership (SCAP) Funding, now is your time to update your EFP!

The Environmental Farm Plan (EFP) is an opportunity to assess areas of strength and potential environmental risks on a farming operation. It provides a farm with increased awareness of areas of potential environmental concern and helps outline site-specific, individualized plans to address, monitor or compensate these risks. It is voluntary and free, and it considers the farming operation as a whole. The EFP program offers all of this in an easy to use, flexible, online format. The EFP began in 2003 and has been delivered by the [Agricultural Research and Extension Council of Alberta \(ARECA\)](#) since 2013.
